WELCOME MESSAGE

Dear Colleagues and Friends,

On behalf of the local organizing committee, it is with great delight that we welcome you to Seoul National University in Seoul, South Korea for the 10th World Congress in Probability and Statistics (WC2020), jointly organized by the Bernoulli Society and IMS, from August 17 to 21, 2020. We are expecting to attract more than 900 experts from over 40 countries.

Held every four years, the congress is a worldwide event covering all branches of statistics and probability. This includes the latest scientific breakthroughs in theoretical, methodological, applied and computational statistics and probability, as well as stochastic processes.

We believe WC2020 will bring transformation and further advancement to the scientific level and quality of the study of statistics and probability.

As the largest city in South Korea, dynamic Seoul is a bewitching mix of ancient and modern structures, packaged in a surprisingly compact metropolis that has earned it the designation of a UNESCO City of Design.

We look forward to seeing you in Seoul, Korea.

Sincerely,

Hee-Seok Oh

Chair of the Local Organizing Committee
Department of Statistics, Seoul National University

SEOUL, KOREA

The Korean Peninsula extends about 1,000 km from the Asian continent into the Pacific Ocean with more than 3,000 islands dotting the coastline. Mountains cover almost 70 percent of the land mass, making the country one of the most mountainous regions in the world and offering abundant forest resources. Administratively, Korea consists of nine provinces with 77 small cities and 88 counties.

With a history stretching back more than two thousand years, Seoul is also a rising global star as one of the world's most wired cities, ranked first in technology readiness. In Seoul you will experience millennia of royal palaces and historic sites among a futuristic backdrop of some of the world's most innovative and daring architecture, such as the chicly designed Dior building or recently inaugurated Seoullo 7017.

MAIN SPEAKERS

Named Lectures

Kolmogorov Lecture

Persi Diaconis (Stanford University)

Bernoulli Lecture

Alison Etheridge (University of Oxford)

Levy Lecture

Massimiliano Gubinelli (University of Bonn)

Laplace Lecture

Tony Cai (University of Pennsylvania)

Tukey Lecture

Sara van de Geer (ETH Zurich)

Wald Lecture

Martin Barlow (University of British Columbia)

Blackwell Lecture

Gabor Lugosi (Pompeu Fabra University)

Doob Lecture

Nicolas Curien (Université Paris-Sud Orsay)

Schramm Lecture

Omer Angel (University of British Columbia)

IMS Medallion Lectures

Gerard Ben Arous (New York University)

Andrea Montanari (Stanford University)

Elchanan Mossel (MIT)

Laurent Saloff-Coste (Cornell University)

Daniela Witten (University of Washington)

Public Lecture

To be named

IMS Presidential Address

Susan Murphy (Harvard University)
